

case study: Saline Waste Outfall Pipeline (SWOP)

project: Saline Waste Outfall Pipeline - Loy Yang Power Station

client: Gippsland Water

location: Victoria

product: Flowtite GRP Pipe

manufacture & supply: 3.3kms of DN600 PN25 SN5000 in 3/6/12 mtr lengths, REKA Rubber Ring Jointed

value: \$0 - 5 million

year of project: 2009/2010

description: Flowtite GRP Pipe was supplied for the Outfall pipelines for the saline waste water from the Loy Yang Power Station. Single pipes were installed in single trenches and the REKA Rubber Ring Joints allowed for fast installation and design flexibility. Fibrelogic assisted onsite with technical support and installation training for the installation crews. The pipeline was supplied and installed on time, passing pressure testing perfectly.
