

**fibrelogic™**  
PIPE SYSTEMS

The **ultimate** in piping solutions

**case study: Sino Iron**

**project:** Sino Iron Intake & Outfall Pipelines

**client:** Citic Pacific

**location:** Cape Preston WA

**product:** Flowtite GRP Pipe & Fittings

**manufacture & supply:** DN1600 & DN1800, PN10 12 mtr lengths x approx 8kms

**value:** \$10m

**year of project:** 2010

**description:** Flowtite GRP Pipe was selected due to Fibrelogic's strong technical and design support, as well as Flowtite's high quality product offering. Fibrelogic sea freighted the pipe from Adelaide to Dampier, whereby DN1600 pipe were nested inside of the DN1800 pipes. This halved the freight cost of normal delivery practice. Fibrelogic designed special rigid sections and fittings to enhance installation and economise design. Flowtite's Rubber Ring REKA Joints made installation simple and fast.
