

case study: Eastern Treatment Plant

project: Eastern Treatment Plant Upgrade

client: Eastern Tertiary Alliance

location: Victoria

product: Flowtite GRP Pipe and Fittings

manufacture & supply: 210m of DN2500 PN 6 SN5000, 206m of DN1500 PN6 SN5000, 160m of DN600 PN6 SN5000 and various fittings in each size

value: \$1—\$5m

year of project: 2010—2011

description: The ETP upgrade project was a major project to allow effluent to be treated on site to an advanced tertiary standard (Class A). Difficult soils and aggressive process media combined with the requirement for a long service life were the determining factors in the choice of Flowtite GRP. The lightweight nature, flexibility of design and strong customer service ensured that this project was delivered on time and under budget.
